

OCCRC – A scent-free environment

Due to the health concerns arising from exposure to scented products, the Orléans-Cumberland Community Resource Centre has instituted this policy to provide a scent-free environment for all employees and visitors.

Scented products to avoid using at the OCCRC for:

- Aftershave lotion
- Body lotion
- Body soap
- Cosmetics
- Deodorant
- Hair products
- Hand soap
- Shampoo and Conditioner
- Shaving soap
- Sunscreen

For many people, fragrant products can cause:

- ❖ Headaches
- ❖ Cough or wheezing
- ❖ Allergic reactions
- ❖ Breathing problems
- ❖ Fatigue, depression, dizziness

Here is a list of scent-free products available in stores. Please read the ingredients carefully, many of these companies also sell scented products.

Thank you for your cooperation

Did you know that....

Halifax is the leading city in North America

In 2011, Halifax marks its 20th anniversary as the first city in North America to go fragrance free at work. During this time, the Regional Municipality of Halifax, the provincial government, hospitals, schools, public transportation systems, several concert halls, and businesses have adopted a fragrance awareness policy. Although non-enforceable, this policy encourages people to be aware of some individuals' sensitivity to fragrances and refrain from wearing them.
